

Summer Camp Necessities

An estimated 11 million children and adults attend a summer camp each year in the U.S. They may choose from **over 17,000 overnight camps** or **over 31,000 camps offering both day and overnight sessions**.

Every year, the **American Camp Association Camp Crisis Hotline** fields calls from camps with questions **about bed bugs**.

This year, there is concern about the Zika virus in addition to West Nile and its transmission via mosquitoes found in the U.S. Smart administrators stock up on camp necessities with an emphasis this year on:

4650 LIGHTS OUT Bed Bug Killer - This **non-toxic, easy spray-on biopesticide has third party certification for effectiveness**. LIGHTS OUT also addresses issues with fleas, ants, millipedes and cockroaches.

4580 BUG BAN PLUS Personal Insect Repellent - The **CDC recommends using repellents with DEET to prevent bites from mosquitoes carrying Zika and West Nile**. BUG BAN PLUS contains a high percentage of DEET (22.56%) and is recognized for effectiveness against mosquitoes capable of carrying the Zika virus.

CABINS

4650 LIGHTS OUT Bed Bug Killer is a non-toxic solution for bed bugs and other specified camp pests.
