

HOUSEKEEPING

2130 SHEEN Glass Cleaner lets the bright sunshine in without bothersome streaks. Its non-static formula keeps surfaces cleaner, longer. Great for windshields, too!

FOODSERVICE

2350 TUFSTUFF Oven & Grill Cleaner is a clinging gel formulation which adheres to all surfaces. Use on hot and cold ovens to remove stubborn cooked-on food, grease and oil. You'll enjoy the pleasant citrus fragrance.

INDUSTRIAL

5960 REVIVE Rust Converter is a quick, convenient way to chemically convert rust to an inert black polymer-based coating. It prevents future rust and can be painted for improved appearance.

AUTOMOTIVE

5520 SLIP-NOT Belt Dressing increases power and performance by reducing power belt slippage. Use on round, flat or V belts. Works even in wet conditions.

PATHWAYS

GROUNDS MAINTENANCE

HIGHLIGHT

2150 NO MISCHIEF Graffiti Barrier protects surfaces from vandalism on park benches, playgrounds, signs, and more. Convenient aerosol spray!

Prepare for Asphalt Season!

As the days get longer and warmer, fleets of asphalt and sealcoating trucks take to the streets, ready for patching, replacing, and resurfacing.

There are over two million miles of well-traveled roads paved with asphalt in the U.S. Additionally, **approximately 90% of the parking lots in the country are paved with asphalt.**

Sealcoating protects and prolongs the life of an asphalt surface for pennies per square foot, so it is no surprise there is a tremendous amount of sealcoating occurring each year.

To give you an idea about how much sealcoating is happening across the country, in the Chicagoland area in a 12-month period, **a single sealcoat provider sealcoated over 22 million square feet of pavement.**

Sealcoating can be a messy job. The fresh, clean appearance of newly sealed surfaces can be accompanied by unsightly splashes, drips, or accidental footprints.

It is smart to always have products readily available to quickly address accidental problems. **5230 TOUGH GUY Super Concentrated Degreaser and Tar Remover is a unique jelled formulation** that removes tar, asphalt, and grease from brick, stone, metals, ceramic tile and quarry tile. Unlike other tar and asphalt removers, TOUGH GUY **stays put where applied.** Plus, it works with no acids, alkalis, chlorinated or fluorinated solvents and has a pleasant citrus fragrance.

As an alternative, **6130 TAR AWAY Super Solvent Degreaser is a liquid solvent degreaser and tar/asphalt remover.** It can be used full strength, or diluted with water or aliphatic solvent. Use with confidence in food processing facilities, as it is USDA authorized.

Once the surfaces are clean, squeeze a small amount of **6820 GRIT Pumice Waterless Hand Cleaner** on hands to remove stubborn grease, oil, tar and asphalt, with or without water.

Common Asphalt Sealing Surfaces:

Parking Lots | Bike Paths
Golf Courses | Walking Paths
Amusement Parks | Boat Launches
Driveways | Roadways

TECH CORNER

Spray-Applied Jelled Deodorants = Odor Control Solutions for Unique Situations

Sometimes you don't want to spend the money for an odor control dispenser, don't want to place it in a location where it can be stolen or broken, or have odor control issues not easily addressed by meters or sprays.

Ideal Locations for Jelled Deodorants

Outdoor Recreation Restrooms
State/Local Community Parks
Swim Club Locker Rooms
Summer Camp Cabins
Portable Toilets
Nursing Home Private Bathrooms
Inside Garbage Lids
Boat / Canoe Houses
Oil Field Camps

Such is the case in situations such as **outdoor restrooms in forest preserves, park district playgrounds, or public beaches.** Similarly, traditional dispensers or manual sprays may not be ideal in summer camp cabins, boat houses, or in long-term care center private bathrooms.

The unique chemistry of jelled deodorants addresses odor control situations that are not candidates for traditional solutions.

The product sprays out as a liquid, enabling pin-point application on vertical, horizontal and irregular surfaces. It quickly converts into a jelled substance to stay exactly where it is applied. It has a slight white-transparent appearance.

It immediately goes to work, slowly releasing fragrance over an extended period of time. As the fragrance is released, the jelled substance slowly evaporates.

Jelled deodorants can be re-applied as necessary, as they leave no residue on the surface and are non-staining.

Spray on hard, non-porous surfaces such as:

- Above Doors
- Top of Ceiling Fan Paddles
- Behind Toilet Bowls
- Back of Closets
- Under Counter-tops
- Inside trash receptacle before using a liner

Available in three different scents:

3130 FIESTA ORANGE TWIST Jelled Deodorant

3200 FIESTA SWEET DREAMS Mulberry Jelled Deodorant

3770 FIESTA CUCUMBER MELON Jelled Deodorant

inside trash can lids

on irregular tile wall surfaces

on air filters

NEW PRODUCTS!

VOC Compliant, Scented Lubricant

5510 OUTBREAK Cherry Penetrating Lubricant - This powerful penetrating lubricant quickly breaks down corrosion, loosens rusted bolts, and displaces moisture while emanating a pleasant cherry scent! It

is non-flammable and VOC compliant in 50 states. Use it for motors, wire cables, rusted parts, door hinges, and refrigeration equipment.

Food Grade Penetrating Oil

5280 PEN EASE Food Grade Penetrating Oil - Loosen and free hard-to-remove nuts, bolts, screws, and more with this fast-acting penetrating oil. The pinpoint spray extension applicator reaches the most difficult-to-reach areas. The high percentage of rust inhibitors

in the formulation helps eliminate rust after pressure washing or steam cleaning of equipment. NSF H1.

Food Surface Cleaner, Degreaser

5260 MAIN EVENT Food Surface Cleaner Degreaser - This water-based cleaner and degreaser is the perfect product for food handling or food processing areas. It quickly removes fats, oils, cooking grease and protein residues from all washable surfaces

in kitchens and food processing areas. It eliminates oxidation odors and clings to vertical surfaces. Safe for plexiglas, formica, stainless steel and plastics. NSF A1.

Non-1,1,1 Trichloroethane Safety Solvent

5180 KICK OFF Safety Solvent - Dissolve grease and rinse away dirt from electric motors, bearings, and electric meters with this 30,000 volt dielectric strength, high powered, non-flammable, non-conductive solvent. It does not contain 1,1,1 trichloroethane or CFCs. It is ideal for downhole

tool companies, wireline companies, electrical pump companies and machine shops. Works great as a brake cleaner!

Fogger or Manual Spray for Odor Control

3680 OCEAN BREEZE Total Release Odor Control - This popular scent is now available with our unique two-way valve which enables use as either a fogger or for short bursts of manual spray odor control. The fogging action neutralizes

odors in up to 6,000 cubic feet of space. The non-staining, dry spray doesn't just cover up odors, it neutralizes them. Meets all current VOC standards.

Bring Leather Back to Life

8150 SNAP BACK Leather Cleaner & Conditioner -

Clean and recondition leather quickly and easily with this convenient light foam spray. It restores the color, beauty,

and suppleness of leather furniture, automotive interiors, sports equipment, luggage, saddles, shoes and handbags.

PRODUCT PROFILE

Fragrance Family: Light, Natural, Popular Scent with Formulation Choices

The current fragrance trend is towards light, natural formulations such as our linen, min-tea, ocean breeze and cucumber-melon fragrances. They appeal to both men and women while addressing the public's affinity for organic, earthy lifestyles.

Since odor control is required in a wide range of environments, savvy facility managers look for products to address all needs in their buildings. After all, metered aerosols are not practical in every situation.

In order to have the same scent consistent throughout a building, we offer four different formulations in today's most popular Cucumber-Melon scent.

Jelled Deodorant

3770 Fiesta Cucumber Melon Jelled Deodorant - When sprayed on a surface, this formulation becomes a clinging gel which slowly releases fragrance for extended periods of time. Eventually the non-staining gel evaporates completely. It is ideal for spraying on vertical and irregular shaped surfaces such as air conditioners, above doors, in trash receptacles, in portable toilets, above ceiling fans and behind toilets.

Fogger & Direct Spray

3190 Cucumber Melon Total Release Odor Eliminator - The unique two-way valve can be locked into an open position to completely discharge as a room fogger or lightly depressed for short bursts of spray. The dry spray leaves no wet fallout on floors, window treatments, or furniture. The formulation destroys the odor molecule leaving a natural fragrance. It is perfect for nursing homes, veterinary clinics, sports clubs, and more.

Dry Air Spray

4030 Cucumber-Melon Dry Air Freshener - Control the application of this air freshener with regard to where and how much is dispensed. The dry spray formulation won't stain, create wet fallout, or leave residue on surfaces.

Bio-enzymatic

2600 Earth Scents Superbugz Cucumber Melon - Get the power of waste-digesting, long-lasting bacteria-producing enzymes to break down organic waste with a refreshing Cucumber Melon scent. The formulation is non-toxic, non-acid, non-alkaline, non-pathogenic and non-polluting. Available in private label only.

SEASONAL TIP

Automotive Post-Winter Clean-Up

There are an estimated 260 million cars and trucks traveling the highways and byways of America. Travel during the winter can take its toll on vehicles, as an **estimated 19 million tons of road salt are used for road safety each year.**

Whether it is driving through snow, slush, rain or mud, a vehicle takes a beating both inside and out. These QuestSpecialty **products are put to good use at car washes, automotive detail businesses, and fleet maintenance departments when vehicle spring cleaning gets underway:**

8150 SNAP BACK Leather Cleaner & Conditioner - Clean and recondition interior leather surfaces quickly with this convenient light foam spray.

8040 FINISHING TOUCH Foaming Tire Shine - Clinging foam dissolves dirt and road grime, leaving a beautiful, wet looking, long lasting shine.

3295 RE-FRESH Auto Air Conditioning Freshener - Quickly and effectively remove foul, musty odors from automobile air conditioning systems, getting them ready for summer use. It kills odor-producing organisms and controls odors from mold, mildew, food, and ashtrays.

2620 SHOWTIME Invisible Coating & Bug Shield - Protect surfaces with this invisible protective coating while repelling dirt, dust, fingerprints, smudges and bugs. Resists scratching and marring of surfaces and protects vehicles from hard to remove insect remains during summer.

2130 SHEEN Glass Cleaner - This foaming glass cleaner delivers long vertical cling time for easy cleaning of car windows. The non-static formulation keeps surfaces clean longer and won't leave a film.

PROMOTIONS

Killer Promotion! Runs through 3/15/17

Be prepared for pest season with our **killer promotion on 18 quality insecticides!** Order through March 15, 2017 and take shipment later (between March 25 and July 14). **You'll save 20% for planning ahead!**

VIDEO

Superman Powers with Arctic Gel

The man of steel has powers enabling him to leap tall buildings in a single bound, stop bullets with his hands, and bend and repair broken train tracks.

5990 ARCTIC GEL Heat Dissipating Spray/Flame Retardant can't give you those types of super powers, but it can enable you to **hold a heated copper pipe with your bare hands.**

Watch our newest video on the effectiveness of ARCTIC GEL as it blocks the heat transfer on a copper pipe.

It also demonstrates the fire retardant benefits of the product for jobs requiring work around drywall or ceiling tiles.
