

Defense EF

METAL PARTS PROETCTOR

Prevents Rust & Corrosion

Weldable

Meets Mil Spec C-16173D,
Grade 4 & C83933A

Contains No Chlorinated or
Fluorinated Solvents

50 State VOC Compliant

5540 DEFENSE EF

12 - 16 oz aerosol cans/case

A flexible, weldable, metal parts protector. When applied, it will prevent rust and corrosion on all metal parts. A 2 or 3 mil coating will provide indefinite protection for indoor storage and 6 months to 1 year protection for outdoor storage. A 5 or 6 mil coating will protect materials for up to 2 years in outdoor storage. Film is a transparent amber, easy to see through. Can be removed by washing with kerosene or mineral spirits. Once removed, parts can be painted.

FOR USE ON:

Machined parts, dies, pipe threads, casting, tools, jigs and stamped metal parts. Prevents corrosion due to salt spray on cables, hoists, pulleys, winches and riggings. Effective in protecting metal parts on boats, ships and dock equipment. Affords long term protection for indoor or outdoor storage. Excellent for protecting materials while in transit. This product is USDA authorized.
