

ARC

WATER-BASED ANTI-SPATTER

Non-Flammable and Non-Toxic

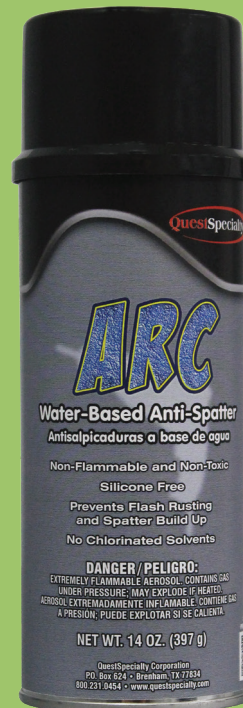

Silicone Free

*Prevents Flash Rusting
and Spatter Build Up*

No Chlorinated Solvents

Plastic Safe

50 State Compliant

5800 ARC

12 - 16 oz cans/case

WORKS GREAT ON:

*Bench top splash guards, contact tips, electrode holders, metal molds,
Mig and Tig tips, resistance welding tips, tools, and weldments.*

AREAS OF USE:

This silicone free formula provides an efficient and effective coating that stops the formation of spatter build up on nozzles, tips, and metal surfaces. Residual spatter is easily wiped away instead of using a chisel, grinder, or wire brush saving you time.
