

Smooth Ride

RUBBERIZED UNDERCOATING

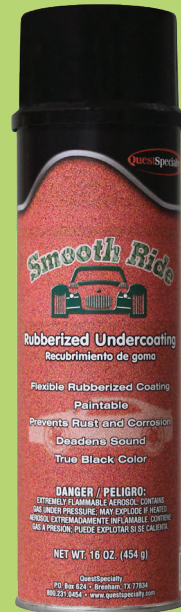

Flexible Rubberized Coating

Paintable

Prevents Rust and Corrosion

Deadens Sound

True Black Color

8170 SMOOTH RIDE

12 - 20 oz cans/case

WORKS GREAT ON:

Vehicle undercarriages, Hoods, Wheel wells, Rocker panels, Trunk interiors, Truck beds (beneath bedliners), Fender liners, Door skins and inner panels, weld joints, RV and trailer undersides, Agricultural and industrial equipment, and Marine trailers. Can also seal flashing, gutters, and cracks in concrete or asphalt. Patch roofs, planters, and tree wounds.

AREAS OF USE:

Heavy duty black rubberized undercoating offers durable surface protection without the mess or odor of asphalt-based products. The fast drying formula leaves a flexible, smooth, uniform layer that won't crack, chip, flake, or peel off. Formula seals out moisture and salt to prevent rust and corrosion and is paintable in 1 hour. The built-in sound-deadening properties make it ideal for reducing road noise and vibrations in wheel wells, underbodies, rocker panels, and more.
